

# adbri MASONRY

Architectural Brick

Adbri Masonry is proud to introduce our modern, versatile architectural brick series, which has been crafted to suit the latest in composite design materials including stone, steel, timber and glass.

## BENEFITS OF CONCRETE BRICKS

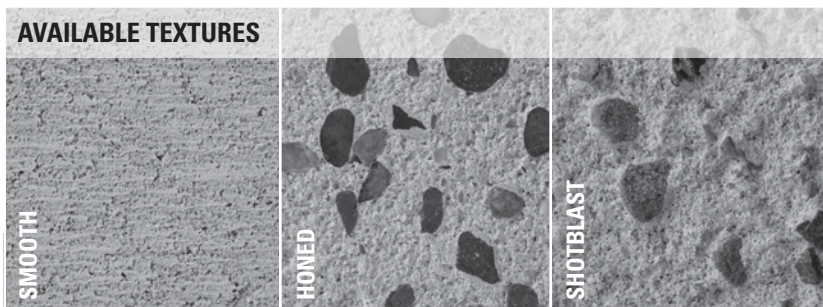

- ✔ A contemporary range of colours and textures
- ✔ Created using environmentally friendly materials and production processes
- ✔ Fantastic thermal properties, resulting in cost savings for heating and cooling homes
- ✔ Each brick is individually pressed, giving a high degree of dimensional accuracy.
- ✔ Affordable brick alternative
- ✔ Easy to use and install
- ✔ Each colour is individually batched ensuring consistent colouring
- ✔ Versatility to use a combination of textures, to create complex designs
- ✔ Ability to create project specific colours\*
- ✔ Traditional brick size

\*Minimum quantities and lead times apply

All dimensions in millimetres.

<b>Architectural Brick</b>	230mm x 110mm x 76mm
Compressive Strength	15MPa
Average Weight	3.55kg

The Axdale Police Station used 15,000 of Adbri Masonry's Coloured Architectural Bricks in both honed and shotblast finishes.
