Wallstone® Eco

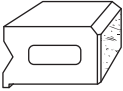

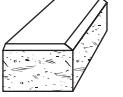

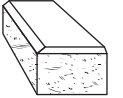

Wallstone® Eco is a brand new retaining wall system.

Wallstone® Eco is a brand new retaining wall system that has a larger face than the standard Wallstone® unit, has horizontal bevels and matching cornerstones and capping units. Wallstone® Eco is Adbri Masonry's entry level retaining wall and is made using a different blend of sands and aggregates to that of Wallstone® and Wallstone® Grande. Be sure to order all components as 'Eco' for a consistent finish and the economic price tag.
