

# Built to Last

Architectural Excellence Showcase

**adbri** MASONRY

an ADBRI company

# Introduction

Adbri is Australia’s leading masonry manufacturer producing quality concrete bricks, Besser® blocks, pavers and retaining wall products.

At Adbri, we’re building a better Australia and we’ve supplied our products to many of our country’s most iconic projects including Sydney Olympic Park, Brisbane’s Botanic Gardens, the Adelaide Oval, City of Sydney streetscapes and thousands of designer homes and landscapes.

All of our concrete masonry products are manufactured in Australia to Australian standards. We test for quality in our N.A.T.A accredited testing laboratory and have a certified Quality Management System to ISO: 9001:2015 for production, development, and sales of masonry products.

Adbri Masonry concrete bricks have been used in many architectural award-winning projects, having won Think Brick Awards in 2016, 2018, 2019 and 2020.

If you’re looking for a reliable, local partner for your next brick project, ask for Adbri.

Bring Your Ideas to Life with Concrete Bricks	

## Refined Architectural Bricks

You'll make a statement with a stunning design that's built to last with Adbri's Concrete Face Brick.

These hard-wearing bricks provide unrivalled design flexibility with an on-trend range of colours as well as elegant finishing and textural options to highlight face brick as a feature in your designs.

While they look and feel familiar, these concrete bricks provide a refined aesthetic appeal that is only available in a range of colour-through bricks with distinctive Smooth, Shotblast and Honed surface textures.

### Built to last

- Hard wearing concrete brick
- Excellent dimensional accuracy
- High quality face finish

### 100% colour through

- Brick colour runs all the way through
- No faux face coatings or textures
- Reduces negative impact of chipping

### Three Core Design

- Familiar profile, improved design
- Defined face shell for mortar bedding

### Solid bricks included

- Solids included in pallet
- Perfect for hit and miss patterns
- Great for feature bricklaying

Bring your  
ideas to life  
with concrete bricks

Most bricks allow for a single visual design. These premium concrete bricks allow the creative possibility of blending the different brick colours and textures. As the Coloured Concrete Bricks are made in complimentary colours, stunning design outcomes can be achieved by blending the different brick colours and textures throughout face brick walls. The uniquely random appearance provides a memorable aesthetic appeal that will not soon be imitated.
