Holiday at Home

Palm Springs boasts one of the world's most recognisable residential 'looks' and right now, it's one of the biggest style inspirations for Australian homeowners. Made famous by mid century modern designs featuring overhanging flat roofs, the iconic dry climate landscaping and accentuated furnishings, the Palm Springs style is (literally) so hot right now!

In Australia, the Palm Springs look starts with a contemporary coastal chic design infused with a touch of glamour that presents in a soft pastel colour palette and feature décor pieces which provide the resort style feel.

"Palm Springs is a design theme that perfectly suits the style of our homes with a focus on the outdoor areas and making the most of the climate. While there are some basic Palm Springs principles to follow, this is a trend that allows for a modern Aussie twist with a coastal influence in the hardscape materials and the inclusion of Australian natives in planting" says award winning landscape designer Jason Hodges.

The Palm Springs garden is a look that can be easily applied to both front and backyards and is a style that is perfect in smaller homes but can equally be used to create stunning spaces in larger yards. While Palm Springs gardens look great, one of the reasons that they are so incredibly popular right now is that they are low maintenance. The plant selection requires little upkeep, turf is kept to a minimum and the alfresco area is a concrete paver made to last so you can spend time enjoying, rather than maintaining your Palm Springs paradise.

The Palm Springs vibe

The essence of Palm Springs style is a seamless indoor-outdoor transition that leads to generous outdoor spaces where clean lines are prominent, breezeway blocks create privacy screens and where sparse, but well considered planting of cacti, fan palms, and agaves thrive.

FROM PLAIN SPACE TO PALM SPRINGS

- ✓ Create a resort style Palm Springs retreat for less than the cost of a trip to California
- ✓ Invest in your home, increase its value and improve your lifestyle
- ✓ Holiday at Home – create a perfect Palm Springs yard that your family will enjoy year-round

"Create the look with 3-5 iconic Californian fan palms, space agaves through the garden bed and plant out a feature cactus garden. I also love the colour provided by bird of paradise plants. Palm Springs is purely about escape and enjoying the outdoors so choose hard wearing pavers over harder to maintain turf, use gravel in your garden beds and stay true to the pastel colour scheme. Embrace empty space, this is not a garden design to clutter. If in doubt, less is more!"

Every garden is capable of being transformed into a relaxing, low maintenance Palm Springs oasis, even yours! To prove this point, check out these incredible Palm Springs inspired projects! The front yard on the left perfectly captures the style, framing the yard and creating a low maintenance garden. The luxe backyard on the right completely made over a tired pool that looked dated with clay brick pavers. Now, both places are features of their respective homes!
