## About Brighton Masonry

Adbri Masonry is Australia's leading masonry manufacturer producing and supplying quality Australian made bricks, Besser® Blocks, pavers and retaining walls.

In 2010 Adbri Masonry developed the Brighton Masonry brand, a specialty brand supplying masonry products exclusively to Bunnings Warehouse. The range of Brighton pavers and garden wall blocks have been selected due to their visual appeal and ease of use. All Brighton products are DIY friendly and can be used for various home improvement projects ranging from driveways and paths to retaining walls and planter boxes.

## Beautiful backyards for gardening and entertaining

Spending time outdoors with family and friends is a great Aussie pastime. Our year-round climate and desire to get outside means the backyard and garden are often the most used spaces in the house! From hosting birthdays and barbeques to gardening and growing your own herbs and veggies, outdoor areas can be improved to add real value to your home and lifestyle.

“With a little time and effort, even the most boring backyards can be transformed into brilliant entertaining areas” explains Adbri Masonry Brand Ambassador and DIY landscaping expert Jason Hodges.

## Making the most out of your valuable land

“You don't need a massive yard to create functional outdoor living, dining and gardening areas but you do need the motivation to make the most of your land. With property prices the way they are, you really can't afford to be wasting precious space in your home” said Jason.

To make it easy for everyone to enhance their homes, Adbri Masonry has come up with some simple guides for paving, retaining walls and garden edging that can spruce up your space.

## Brighton your backyard and DIY with Adbri

A hand-picked selection of Adbri Masonry products are available through Bunnings Warehouse Special Orders. These products are all DIY friendly and are great for use in a variety of applications.

Projects you can complete with Adbri Special Orders products:

PAVING PROJECTS	EDGING AND GARDEN WALL PROJECTS
✓ Entertaining areas and courtyards	✓ Garden edging and tree circles
✓ Patios and outdoor kitchen / dining areas	✓ Garden walls, planter boxes and veggie gardens
✓ Paving for under bins and around doors into your home	✓ Small retaining walls
✓ Stepping stones and side paths	✓ Higher retaining walls (with engineering plans and advice)
✓ Pool surrounds – special pavers required	✓ Circles, curved and straight walls
✓ Driveways – special pavers required	✓ Separate lawn from garden bed

# How to lay pavers

Step 1

Dig out area to be paved, bring in road base and compact for the foundation.

Step 2

Screed sand over the compacted road base allowing for a gentle fall for water runoff.

Step 3

Set up string line and start paving.

Step 4

Haunch the pavers to "lock" them in place, sweep in paving gap sand and hose down to finish.

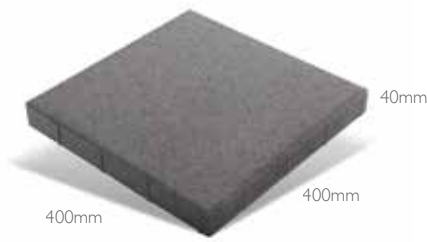

Paving: Mypave 426 Charcoal  
Edging: Mypave 216 Charcoal

**TIP** | Order 5% more for every paving project to account for cuts/breakages.
